

# HandyMan/person Required Coleorton Parish Council

## Handyman Contractor

Coleorton Parish Council is inviting tenders from interested parties to undertake a variety of 'handyman' works in and around the village of Coleorton, on a pay as you go basis. There will be a requirement for some work on an ad hoc basis, and some works may be required on a regular basis.

Duties will be varied and may include: repair work, cutting hedges, strimming overgrown weeds, checking play equipment, relocating speed indication device twice monthly, putting up lamppost poppies, assist at parish events, erect Xmas tree, deputise for the wood opening, plus other tasks to keep the village clean and tidy.

The work would suit a local person with some time to spare. He/she will be self-employed, have the necessary skills, equipment, insurance, and transport.

All activities must be supported by suitable and sufficient risk assessments and safe systems of work. PPE highlighted within the risk assessments will be funded by the council.

Candidates will be required to attend an interview and references will be taken.
