

Weekly Construction Update – Friday 10<sup>th</sup> February 2017

## Ashby-de-la-Zouch, Junction 13 – A42/A511/A512 Improvements

### THIS WEEK

Our compound on the Lounge Wind Farm site has been substantially completed. The surface water drainage improvements works are ongoing on the western verge into Coalfield Way. Pedestrians remain relocated from the footway into the left turn lane with protective barriers in place. The left turn filter into Coalfield Way remains closed with a diversion in place. The installation of BT and street lighting ducting has commenced in the footway adjacent to the closed left turn lane, the installation of new road gullies has started and carriageway widening works have also been undertaken in this location. Works have continued on the eastern verge of the Ashby outbound A511, in the direction of Lountside, with additional drainage installation. Off-peak lane closures remain in place when required.

### NEXT WEEK

The surface water drainage and excavation works will continue on both the east and west verges of the A511 Ashby. The installation of the new western kerb-line on the A511 will commence. The left turn lane and entrance into Coalfield Way will remain closed and off peak lane closures will be implemented on the A511 outbound.

Please note works may be undertaken next Saturday 18<sup>th</sup>, with lane closures as required, but this will be dependent on weather conditions, traffic flows and progress. This will be confirmed in next week's update.
